

Who is Gravie?

We're redefining health benefits in the small and midsize markets with an innovative approach to group health plans and ICHRAs, **offering unique plan design, more support and better cost predictability.**

Creating health benefits that actually benefit small and midsize businesses

It began with an observation: health benefits often don't benefit consumers at all, and this is especially true when it comes to small and midsize businesses. **Gravie was founded on the belief that everyone deserves the care, guidance and financial support** they need to lead healthy lives.

We create health benefits that are as good as they sound — for employers, employees and brokers.

About us:

- Founded in 2013, **Gravie has improved health benefits for over 3,300 employers and nearly 270,000 individuals.** We're backed by strong venture capital investors, including General Atlantic, AXA Venture Partners, FirstMark Capital, Georgian and Split Rock Partners.
- We offer a **unique stop-loss structure** through Risk Solutions Insurance Company (RSIC), of which Gravie owns voting shares, and is an insurance company based and licensed in Vermont ("VT") in order to offer cost-effective, level-funded plans to employers.
- We are a **licensed third party administrator** authorized to do business nationwide.

Who else but Gravie can help you sell both ICHRA and level-funded solutions to your employer clients?

We've designed everything we offer to give your groups more flexibility, control, and value.

INDIVIDUAL COVERAGE HEALTH
REIMBURSEMENT ARRANGEMENT

Flexible, sustainable coverage for today's workforce.

With Gravie ICHRA, employers offer tax-advantaged contributions that employees use to buy coverage on the individual market — giving both sides more freedom and stability.

Gravie's level-funded solutions give employers the best of both worlds — the cost savings and control of self-funding, with the stability and support of a trusted partner.
