

Cancer Insurance

Benefit Summary

A Cancer insurance plan provides:

- Lump-sum cash payments for certain procedures, screenings and treatments related to a covered cancer diagnosis, in addition to whatever your medical plan covers
- Payments are made directly to you and can be used for any purpose
- Ability to take the coverage with you if you change jobs or retire
- Affordable group rates

UNDERSTANDING YOUR BENEFITS:

- Cancer** Cancer means you have been diagnosed with a disease manifested by the presence of a malignant tumor characterized by the uncontrolled growth and spread of malignant cells in any part of the body. This includes leukemia, Hodgkin's disease, lymphoma, sarcoma, malignant tumors and melanoma. Cancer includes carcinomas in-situ (in the natural or normal place, confined to the site of origin, without having invaded neighboring tissue). Pre-malignant conditions or conditions with malignant potential, such as myelodysplastic and myeloproliferative disorders, carcinoid, leukoplakia, hyperplasia, actinic keratosis, polycythemia, and nonmalignant melanoma, moles or similar diseases or lesions will not be considered cancer. Cancer must be diagnosed while insured under the cancer plan.
- Experimental Treatment** Benefits will be paid for experimental treatment prescribed by a doctor for the purpose of destroying or changing abnormal tissue. All treatment must be NCI listed as viable experimental treatment for Internal Cancer.
