Comfort Performance	7
The Gravie Experience	8
Partnering with Gravie	10

The Problem

Traditional health benefits fail to hit the mark for small and midsize employers, and the appetite for innovative health plans that meet the unique needs of SMBs has never been greater.

Market size

Small and midsize employers account for 99.9% of businesses in the US.

Small Business Association

Unlevel playing field

Almost every US business with 50+ employees offers health benefits, compared to fewer than half of smaller firms.

Agency for Healthcare Research and Quality

SMBs at disadvantage

On average, employees at smaller firms pay a greater share of total premiums and face higher deductibles compared to workers at larger firms.

Commonwealth Fund

Low satisfaction

Health insurance companies consistently rank at the bottom of consumer satisfaction. It's no wonder why, with difficult-to-navigate, non-intuitive plans that nickel and dime individuals at every turn.

Small Business Association

THE SOLUTION

To meet the diverse needs of your small and midsize clients, we offer our innovative Comfort plan, for those who want radical simplicity for their employees. We also offer simplified versions of traditional health plans: copay plans, HSA-qualified high deductible health plans, and high deductible health plans. Across all options, preventive care and drugs are covered at no cost — a reflection of our commitment to making high-quality healthcare more accessible and affordable.

Our flagship level-funded product, Comfort, provides zero-cost coverage on most common, in-network medical services accessed in a clinic or doctor's office. Comfort eliminates cost barriers like expensive copays and deductibles that must be met before benefits kick in, giving individuals and their families better access to the services that will keep them healthy. Alongside Comfort, we offer ComfortFit as well as more traditional level-funded products — copay plans, HSA-qualified high deductible health plans, and high deductible health plans — that help employers better manage and predict costs. Across all options, preventive care and drugs are covered at no cost, a reflection of our commitment to making high-quality healthcare more accessible and affordable.

Unparalleled coverage will impress your clients and their employees.

Last year, 94% of Comfort visits were covered at no cost to members.

How is this possible?

We take a tailored approach to underwriting for smaller groups — using actuarial tools and decades of combined experience to go beyond just the claims data. Not only does this help control costs, it eliminates the need for Individual Health Questionnaires (IHQs) and ensures each group is reaping the greatest value from their health benefits.

Every Gravie level-funded plan also includes:

- National provider networks, including Aetna or Cigna Healthcare® (including the Cigna LocalPlus narrow network), as well as HPS, a regional network in Wisconsin
- Stop-loss protection administered in-house - no need to purchase separately
- Pharmacy benefits administered through Express Scripts
- Virtual health and wellness services through Teladoc, including urgent care, behavioral health and dermatology consults
- Virtual musculoskeletal care and therapy services through Sword Health
- Transparent claims reporting and ongoing plan performance insights delivered by a dedicated account manager

Our plan options include:

- **Comfort®** — Our flagship plan provides no-cost access to common, in-network services, such as primary and preventive care, urgent care, specialty visits, generic drugs, and virtual care.
- **ComfortFit™** — Like Comfort, ComfortFit focuses on no-cost access for common core services and drugs. Higher-cost services such as advanced imaging, ER visits, and specialty drugs are subject to more cost-sharing.
- **Copay plans** — Plans that require an initial payment for certain services, or to meet a deductible and/or out-of-pocket maximum before the health plan begins paying for eligible services. More traditional cost-sharing, same no-cost preventive care and drugs, and Gravie Care support.
- **Qualified High Deductible Health Plans (QHDHP)** — HSA-qualifying plans that offer lower premiums and comply with federal rules for employers who want to provide an HSA account.
- **High Deductible Health Plans (HDHP)** — Leaner plans that offer the Comfort simplicity of a single out-of-pocket maximum with no deductible, but full member responsibility until that out-of-pocket maximum is reached.

SEGMENTED BENEFITS SOLUTION

In addition to our level-funded plans, Gravie EDGE is a segmented benefits solution that combines level-funded health plans and ICHRA to deliver the right coverage model for each employee segment — all through Gravie. Working closely with you, Gravie analyzes employers' workforce and models multiple benefit scenarios to determine the optimal mix of plan types. This enables employers to deliver the right coverage to their workforce, while optimizing cost and experience.

Workforce segmentation by design

EDGE supports segmentation across work status (full-time, part-time, seasonal), pay structure (salaried vs. hourly), union status, and geography — allowing employers to tailor benefits to their unique situation, while maintaining regulatory compliance.

Cost optimization without trade-offs

By combining level-funded plans with ICHRA under one solution, EDGE maximizes value for employers without reducing the support employees get for their healthcare.

Guided implementation and year-round support

A dedicated Implementation Manager guides onboarding for the employer. Gravie Care team provides a consistent member experience regardless of benefit type, with enrollment tracking, reporting, and year-round account support.

Proven employer outcomes

In a representative case study, a medical clinic with 100 eligible employees facing a 50% renewal increase achieved a 6% year-over-year reduction in healthcare costs by transitioning to EDGE, while continuing to offer comprehensive benefits and streamlining benefits administration under a single provider.

Pharmacy is a significant part of what makes Gravie different — and for PY2027, we're making it even better.

Traditional health benefits fail to hit the mark for small and midsize employers, and the appetite for innovative health plans that meet the unique needs of SMBs has never been greater.

Across all plans, preventive drugs are covered at no cost, including commonly prescribed medications for asthma, diabetes, heart disease, high blood pressure, depression, and more. That means statins, insulin, albuterol, and similar maintenance medications are covered before the deductible — keeping members healthy and reducing the likelihood of costly interventions down the road.

Gravie actively manages medication costs on the back end through Gravierx. Generics are automatically paid at the lowest of Express Scripts and GoodRx rates, handled at the pharmacy so members don't need to manage anything separately. Gravie also proactively engages with members, pharmacies, and providers on lower-cost alternatives — surfacing savings opportunities and offering cash incentives to members on higher-cost drugs.

For specialty medications, Gravie's Tier 4 (Preferred Specialty) drugs are covered at the same cost-sharing as generics. Tier 5 (Non-Preferred Specialty) cost-sharing varies by plan, and the SaveOn program — which offers select specialty drugs at no cost — remains available for Comfort, ComfortFit, and Copay plans.

Looking ahead, we're developing a unified digital pharmacy experience through our app and web that will give members a single view of their benefits, an easy refill experience, and proactive opportunities to save.

All pharmacy benefits are administered through Express Scripts.

Comfort vs. Traditional Plans

	Traditional silver plan	Comfort — \$5,000 OOPM
Deductible	\$3,000 deductible / \$5,000 OOPM	\$5,000 OOPM/Deductible
Coinsurance	25% after deductible	No coinsurance
Preventive care (per ACA guidelines)	No cost	No cost
Primary care (in a doctor's office)	\$30 copay	No cost
Specialist care (in a doctor's office)	\$30 copay	No cost
Urgent care	\$30 copay	No cost
Generic Prescriptions	\$25 copay	No cost
Emergency room	25% coinsurance after deductible	\$500 copay
Preferred brand prescriptions (retail, 30-day supply)	25% coinsurance after deductible	\$75 copay
Non-preferred brand prescriptions (retail, 30-day supply)	50% coinsurance after deductible	\$100 copay
Eligible specialty prescriptions	25% coinsurance after deductible	No cost with SaveOn
Non-eligible specialty prescriptions	25% coinsurance after deductible	No cost after out-of-pocket max

Data reflects in-network costs for an individual plan

When out-of-pocket do arise, there's Gravie Pay®

Medical debt is affecting over 100 million Americans, regardless of financial status, and half of U.S. adults don't have the cash to cover an unexpected \$500 health care bill.⁴ The burden of medical debt is out of control in America, and it's not only negatively affecting people's finances — it's also adversely affecting their health. While other industries, like retail, have multiple payment solutions for those who need a little extra help, they're severely lacking in the healthcare industry.

As part of our goal to create health benefits that actually benefit small and midsize businesses, helping people access care without worrying about paying for it is crucial. Comfort covers an extensive

list of no-cost services for members, making their care much more affordable and easier to predict. But in those circumstances when out-of-pocket expenses do arise, there's Gravie Pay.

Gravie Pay is an interest-free, pay-over-time solution Gravie health plan members can use to pay for medical expenses subject to their out-of-pocket responsibility, whether planned or unexpected. Buy now, pay later services continue to soar in popularity with consumers. By pioneering this kind of solution for the healthcare industry, Gravie is helping individuals and families afford care without the extra stress, and making it even easier for them get the most out of their health plan.

Virtual Services

Gravie partners with health and wellness industry leaders to give members access to a suite of virtual services that aim to enhance their health and wellness journey.

Gravie health plan members have access to virtual care including urgent care, mental health (18+), and dermatology through Teladoc Health, the world leader in whole-person virtual care. Mental health care includes clinical services such as psychiatry and therapy visits, as well as non-clinical services such as mental health coaching and digital programs.

Gravie health plan members (13+) have access to Sword Thrive, a clinical-grade digital physical therapy program for musculoskeletal (MSK) pain. Members get personalized care from licensed physical therapists and sensor-based technology — accessible whenever and wherever is convenient, no clinic visit required.

Gravie health plan members (18+) have access to Sword Bloom, a digital pelvic health program for women and individuals with vaginal anatomy. Bloom pairs members 1:1 with a licensed Women's Health Specialist (Doctor of Physical Therapy) and uses sensor-based technology to deliver personalized pelvic care — covering everything from bladder leaks and pelvic pain to pregnancy, postpartum, and menopause — all from home.

For many Gravie health plan members, these services are included **at no additional cost**. Virtual services are the cherry on top.

Comfort® Performance

Industry-leading plan performance:

Comfort drives better outcomes and lower costs.

Because Comfort is designed with members' long-term health in mind, more accessible healthcare is resulting in improved health outcomes – and both members and employers are saving money in the process.

94%
zero-dollar
office visits

Last year, 94% of office visits with Comfort were covered at no cost to members.

13%
employer
savings

Employers saved an average of 13% versus what their renewal would have cost, for new business written in 2026.

87
net promoter
score

Brokers selling Comfort have a net promoter score of 87, roughly 30 points above the industry average for health insurance.

97%
Employer satisfaction

Nearly all Gravie employer groups report being either satisfied or very satisfied with their Gravie experience.

Gravie pays attention to our concerns and what we need. It just keeps getting better and better.

Benefits Administrator and Gravie Customer

If I have any questions, I know Gravie Care is there.

Level-funded: a one-stop, industry-leading solution

The Cigna Healthcare® OAP Network refers to the health care providers (doctors, hospitals, specialists) contracted as part of the Cigna Healthcare Open Access Plus network for Shared Administration. Cigna Healthcare® is an independent company and not affiliated with Gravie Administrative Services. Access to the Cigna Healthcare OAP Network is available through the contractual relationship between Gravie Administrative Services and Cigna Healthcare. All Cigna Healthcare products are provided exclusively by or through operating subsidiaries of The Cigna Group, including Cigna Health and Life Insurance Company. The Cigna Healthcare name, logo, and other marks are owned by Cigna Intellectual Property, Inc.

More support. More success.

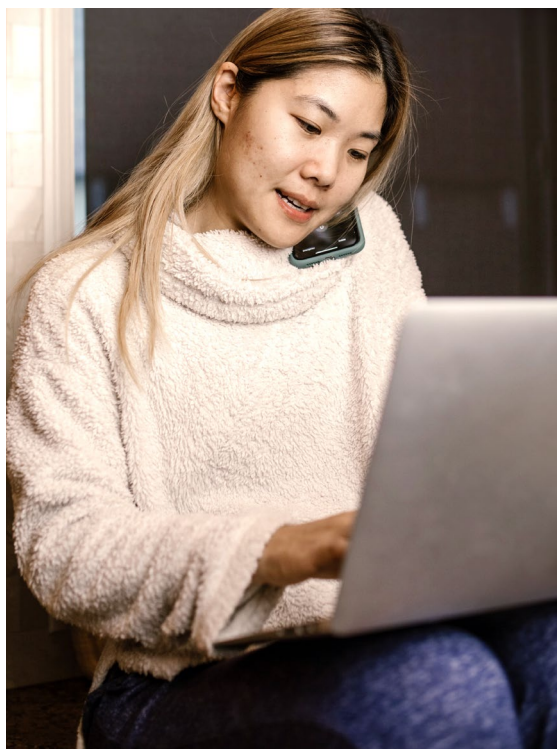

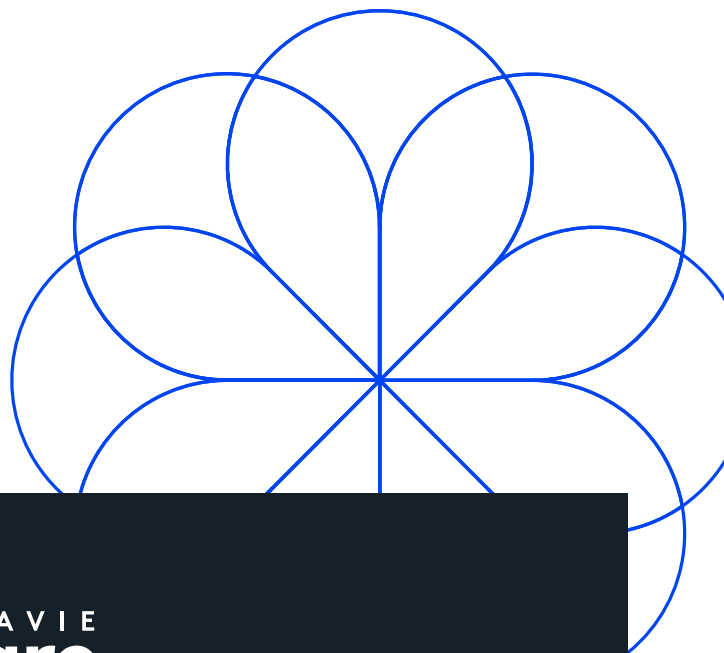

No matter which solution is the best fit for your clients, the Gravie experience stands unparalleled.

Health benefits just got a whole lot easier.

Implementation support for clients includes assistance collecting all necessary information, census, and plan design data.

Year-round account management for clients includes regular personalized check-ins, comprehensive reporting, and renewal support.

Employee support, aka Gravie Care, offers access to licensed advisors available to help members choose and enroll in coverage, get care when they need it, and answer their benefits questions throughout the year.

Gravie Care advisors help members evaluate plan options, verify network coverage, locate providers, decipher EOBs and bills, and so much more.

Members are just a phone call or secure message away from someone who's on their side, willing to go the extra mile to help them get the most out of their health benefits.

Partnering with Gravie

With Gravie, you get more than just a health benefits partner.

We're your partner in innovation, exceeding client expectations and keeping you several paces ahead of the competition as we meet employer and employee needs like never before.
